Mr James Hull  
Chief, Solid Waste Section  
Missouri Department of Natural Resources  
Post Office Box 176  
Jefferson City, Missouri 65102

Dear Mr Hull

On September 20, 1989, I visited the Elliott Shooting Park on 75th Street in Raytown, Missouri, in response to a citizen complaint I had received. In 1986, the U S Environmental Protection Agency (EPA) issued a Consent Order to Boatman's Bank, as the owner of this site, requiring that a cleanup of lead be conducted at the site. I recently received documentation from the bank that this cleanup has been completed.

I visited the site with a Mr Louis Brinkoetter, who owns and lives on property adjacent to the site. Mr Brinkoetter pointed out several areas of solid waste dumping in the wooded area north/northwest of the actual shooting park range. It was Mr Brinkoetter's opinion that the property on which the dumping was observed was also owned by the bank. The following materials were observed in several piles in this area: scrap wood, scrap corrugated metal, empty drums, carpet scraps, tree and grass cuttings and miscellaneous trash. I saw no evidence of the disposal of toxic or hazardous materials or wastes.

On September 21, 1989, I then received a call from Mr Bill Worley of Kingston Construction, which did the lead cleanup of the site for the bank. I advised Mr Worley of the complaint regarding solid waste dumping reported to me by Mr Brinkoetter. I described the dumping I had seen and told him where on the site it was. Mr Worley said he would have someone visit the site in the next day or two and if the dumping is on the bank's property, would have it removed for proper disposal. Mr Worley agreed to advise me of any further developments in this matter. I will pass on any such information to your program.
